

“Designing Pedestrian Facilities for Accessibility”

Description – Facilities in the public right-of-way (including walkways, ramps, curb ramps and landings, crosswalks, and pedestrian overpasses and underpasses) must be designed, constructed and maintained to serve all users. The workshop will identify applicable laws, regulations, guidelines and standards pertaining to accessibility for persons with disabilities. Requirements for ensuring accessibility in existing facilities versus work in new construction and alterations will be discussed. Design elements necessary for achieving accessibility in the public right-of-way will be reviewed, and best practices will be identified.

Registration Information – This course offering through LTAP is intended primarily for local, state, federal and private agencies. Registration fee is free. **Lunch is provided.** Substitutions may be made at any time. Any registrant requiring a reasonable accommodation during training (i.e., mobility or access) should contact the Mississippi LTAP Center prior to the course date so the appropriate arrangements can be made.

Who Should Attend? Personnel from local, state and other agencies involved in designing, constructing and maintaining facilities in the public right-of-way. These include engineers, MPO Staff, technicians, public works directors, highway supervisors, crew leaders and private consultants.

Instructors: Ms. Colby Willis, Mrs. Jessica Dilley, Mr. Jarrett Taylor and Mr. Jim Rigby

Time: 8:00 a.m. – 4:00 p.m.
